

COMPANY PROFILE

A joint venture with one of Japan's largest marine transportation companies, Kawasaki Kisen Kaisha lines, "K" Line Philippines, Inc. (KPH) was appointed the General Agent representing "K" Line in all aspects of business in the Philippines. "K" Line is a fully integrated intermodal transportation company linking the entire Pacific Rim with North America and Europe. This alliance allows KPH privileged access to the operations of various liner routes between the Far East and Europe, Central and South America, Australia, Africa, and North America.

Because of KPH's network of branches, "K" Line is present throughout the country covering not only Luzon but also the Visayas and Mindanao regions. Its long standing partnership with a global enterprise like "K" Line, has earned KPH its reputation of being not only one of the country's premiere shipping agencies but also one of the largest port-user of the Manila International Container Terminal (MICT).

Undoubtedly KPH and "K" Line activities in the Philippines have expanded significantly since the start of their partnership. It opened its Cebu Branch in August of 1984 and shortly thereafter the Davao Branch was opened in December of 1984. It has offered since then its customer base total logistic solutions in transporting goods and cargoes in all forms, sizes, and modes whether to or from the country. KPH is considered to be one of the premier international cargo carrier among the numerous shipping lines currently in operations.

Since June 1, 1984 when it began its operations, until July 1, 2004, KPH was represented in the Philippines by Transmar Agencies, Inc., a member of the Rayomar Management Inc. In the near future, plans to venture into other logistic operations are being eyed to expand on services offered.

KPH is founded, headed and manned by people with strong sense of commitment, professionalism, and corporate intelligence - sharing a passion in delivering exceptional products and services for its clientele.
