

Pacifica Deli Inc. was established in February 2012 as a new deli concept within the supermarket setting. We bring in authentic, traditional cured meats and cheeses that are truly representative of their countries of origin - Spain, Italy & the Netherlands, to name a few.

Prior to opening our first store inside Makati Supermarket in October 2013, we developed a sausage-producing facility with the end in view of developing a high-quality, all-natural and preservative-free line of sausages that was initially to be retailed at our store.

Today, we supply our own line of sausages to a growing list of foodservice clients. The facility also allows us to develop customized sausages according to the specific requirements of our clients.

Pacifica Deli Inc. is a subsidiary of Oriental Merchants, Inc. and a member of the Rayomar Group of Companies – a group of 14 companies with core competencies in international and domestic shipping, crewing, trucking, warehousing, sea and air freight forwarding and domestic distribution. Backed up by Oriental Merchants' 29 years in the retail & foodservice industry and the broad reach of the Rayomar Group, **Pacifica Deli** aims to use these to the benefit of its customers and transform itself into a driving force in the industry.

PACIFICA DELI INC.
